10:30 – 11:30	**Coffee break & Poster session**
11:30 – 12:30	**Consensus building workshop** This session aims at discussing some interesting correspondences among a board of experts. Such correspondences are determined as a result of the manual evaluation of the matching results and of the preparation of the reference alignment. The main goals of this discussion are: tracking the process of argumentation leading to consensus and increasing the precision of the reference alignment. The correctness of correspondences will be considered not only from the general perspective but also with regard to several application scenarios.
12:30 – 14:10	**Lunch**
